

**Citizen Advisory Workgroup
Minutes 2/12/26**

- I. Welcome
- II. Review of 1/27 minutes
 - A. No additions or corrections
 - B. Adoption of minutes
- III. Attendance: Barbara Allen, Thomas Higdon, Edwin Gibbs, Jessie Dunleavy, Joe Rogers, Johanna Dolan, Malik Burnett, Megan Murnane, Tammy Collins, Thomas Higdon, Yngvild Olsen
- IV. Review of Member Input Document
 - A. Desire to treat as a living document, several ideas added including:
 1. Improving school-based prevention by focusing on consistency, coordination, and standardization
 - a) DPA / Stanford school-based prevention program suggested as one possible model
 2. Stigma reduction, especially within recovery and treatment communities so that people are able to choose recovery pathways that are right for them
 3. Recovery literacy and using recovery capital measurements instead of traditional success metrics
 4. Redefining success to shift away from a focus on abstinence as a singular end goal
 5. MDRN
 6. Peer navigator ecosystem
 7. Healthcare Access MD as a model
- V. Moving towards a process to organize and formalize recommendations for the MORAC
 - A. Discussion around finding common themes and organizing the member input document so that it could move towards a unified list of recommendations
- VI. Members requested the use of a google doc or some other shared document
